Capabilities

Incorporated in 2014, Unify Health Services, is a women-owned small business that provides client specific pre and post-injury workforce solutions nationwide. Our expert team has over 70 years combined experience in the injury management field. We connect the dots between Human Resources, Safety, and Risk Management. We assist employers in the development and implementation of their Prevention and Return to Work Programs resulting in injury reductions, healthier employees, and claims closure.

Differentiators

- Focus on both Pre and Post-Injury workforce strategies promoting healthy and safe employees
- Customized/personalized customer approach provides optimal outcomes and savings and the data to back them up
- A small business that successfully manages national contracts with the same professional attention to detail and personalized service as a single location
- Women Owned Minority Business
